

Same Company,

New Look!

To our Valued Customers,

As we welcome the New Year, we are excited to announce an important change at Horticultural Associates of Rochester, Inc. As of January 6th, 2017, we are re-branding our name to **We Find Plants**. We've been finding (supplying) and shipping plants for over 26 years and ship over 1000 tractor-trailer loads of nursery stock a year!

This name change is a more direct approach for helping potential and existing customers recognize where the best place to go is to get expert help in finding and shipping **all** of their plant material needs. Most projects require several nursery sources to fulfill a contract. That means several nursery accounts must be opened (often with prepayment requirements), several trucks must be scheduled, and you will have to deal with lots of different people to get the job done. At We Find Plants, we take all the headaches away of buying plant materials for your projects. You deal with one person who does all the work for you and wants you to succeed! Large and small, one call truly finds and ships it all.

In conjunction with this, we will be launching our new improved website at www.wefindplants.com. This website has a powerful search engine for you to search plants quickly from over 100,000 items to see what is available. We date stamp each result so you can see when it was uploaded and how current it was and are constantly updating fresh availabilities. See something you like, click it and send it to us to find and price. It's as simple as that. Please check it out!

What does this mean for our current customers? Well, the good part is all of our contact information has not changed. Our website, email addresses and existing phone numbers are just as they are.

The Horticultural Associates you know is changing its look for 2017 and we are excited to hear how you feel about our change and look forward to working for you in 2017 and beyond. Call or email us what you think.

Sincerely, The Staff at We Find Plants
